## PROFESSIONAL SUMMARY

Frontend Engineer and Software Developer with expertise in TypeScript, React, and Next.js. Demonstrates a strong ability to create responsive and visually appealing web applications. Committed to continuous learning and staying updated with the latest industry trends. Aims to leverage skills in a dynamic team environment to contribute to innovative projects. Completed National Youth Service Corps (NYSC).

## PROFESSIONAL EXPERIENCE

### Myvamsnet Limited

*Front-End Engineer*

Nigeria (Remote)

Oct 2025 – Present

- Operate in an Agile and Scrum oriented work environment, utilizing tools like Git, Jira, Slack, and Microsoft Teams.
- Integrate Supabase for backend services including database management and secure user authentication.
- Collaborate with backend developers and product designers to significantly improve overall application usability.
- Gather feedback from users and customers to design and build highly impactful frontend solutions.
- Troubleshoot, debug, and resolve web application bugs and architectural issues as they arise.
- Add modern features to client web applications with proper unit testing to ensure high code reliability.
- Perform systematic pair programming with colleagues to maintain code quality standards and share domain knowledge.
- Collaborate closely with the Customer Support team to resolve production customer issues effectively.

### Myvamsnet Limited

*Front-End Engineer (Intern)*

Remote, Nigeria

Oct 2024 – Oct 2025

- Tested and validated REST APIs using Postman to guarantee proper functionality and seamless data flow.
- Implemented complex API data fetching using TanStack Query for efficient server state management.
- Deployed optimized web applications to Vercel, managing smooth production builds and performance tuning.
- Utilized Git for precise version control, team collaboration through commits, and pull request management.
- Contributed to building responsive and user-friendly web interfaces using modern front-end engineering tools.
- Collaborated effectively within a multi-disciplinary team, consistently improving communication and teamwork skills.

## PROJECTS *(PROJECT NAMES ARE HYPERLINKED TO THEIR LIVE DEPLOYMENTS)*

### Exclusive

*Next.js, TypeScript, Tailwind CSS, Supabase, Zustand, Vercel*

- Built a full-featured e-commerce web application from scratch using Next.js, TypeScript, and Tailwind CSS.
- Designed and implemented the complete user interface with a strong focus on responsive and mobile-first design principles.
- Developed custom Next.js API routes to handle structured data, including product management, cart operations, and dynamic filtering.
- Integrated Supabase for secure authentication flows (sign-up, login, session persistence) and database management.
- Managed global application state using Zustand for the shopping cart, wishlist, and user interactions to eliminate prop drilling.
- Added advanced e-commerce features including a shopping cart, favorites system, product search, and multi-category filters.
- Optimized production performance using lazy loading, dynamic imports, and Next.js image optimization techniques.
- Deployed the application on Vercel, ensuring production-ready CI/CD deployment pipelines and secure environment configurations.

### AngyCare Provider

*Next.js, TypeScript, Tailwind CSS, Supabase*

- Contributed to developing a provider management platform connecting caregivers, doctors, chefs, and cleaners.
- Built and optimized responsive UI components using Next.js and Tailwind CSS across mobile, tablet, and desktop devices.
- Collaborated with a team of developers to map out and implement user-facing features based on strict product requirements.
- Integrated modern frontend interfaces with Supabase backend services, focusing on user data handling.
- Focused heavily on improving overall UI responsiveness, usability, and component reusability within a team workflow.

### Instagram Clone (In Progress)

*Next.js, TypeScript, Tailwind CSS, Supabase*

- Developing a full-stack social media application featuring user authentication, post creation, likes, comments, and profiles.
- Migrating the application codebase from standard React to Next.js to improve routing, SEO performance, and scalability.
- Integrating Supabase for secure user authentication, core relational database management, and media storage.
- Implementing social features including interactive post elements, user profiles, and follow/unfollow functionality.

## TECHNICAL SKILLS

**Languages:** TypeScript, JavaScript, HTML5, CSS3, Programming

**Frontend:** React.js, Next.js, Tailwind CSS, TanStack Query, Zustand, UI/UX Design

**Backend & Database:** Supabase, PostgreSQL, REST APIs

**Tools & Platforms:** Git, GitHub, VS Code, Postman (API Testing/QA), Vercel, Slack, Microsoft Teams

## EDUCATION

**University of Benin**

*B.Sc. in Banking and Finance*

Benin City, Nigeria

Nov 2021 – July 2024

**Edo State Institute of Technology and Management**

*National Diploma: Banking and Finance*

Usen, Edo State

Oct 2017 – Dec 2018
